All credit hours are carried out in a face-to-face traditional setting. However, the course is technology enabled making use of LMS to post the syllabus, content, online test and discussion boards etc.

## B. Objectives

1. What is the main purpose for this course?

Students will be able to:

1. Outline theories of first language acquisition
2. Describe the developmental characteristics of the developmental stages of first language acquisition with respect to all aspects of language: phonology, morphology, syntax, semantic, and pragmatics
3. Use appropriate procedures of collecting and analyzing empirical linguistic data pertaining to child language.

2. Briefly describe any plans for developing and improving the course that are being implemented. (e.g. increased use of IT or web based reference material, changes in content as a result of new research in the field)

1. The following series of orientation workshops are essential for BOTH faculty and students<sup>1</sup>:

**Faculty:** assessment and teaching methods applied in Linguistic courses

**Students:**

Suggested workshops:

- a) Basic skills with word processing software.
- b) Plagiarism
- c) Virtual classes
- d) Critical and Investigative Thinking Skills
- e) Scholarly Sources: When and How to use them

2. End of term faculty meetings /workshops/discussions to assess efficacy of modes of instruction; material given; grading rubric; problems that need to be addressed

3. Annually confirm availability of resources. The library must coordinate with department and Quality to confirm it is equipped with references and required material (see below)

4. Provide support throughout the term from CWE (if available) and focused skills developments session to be offered by the relevant entities.

5. All instructors should have a clearly written assignment guide for all assignments in the course. Work on a combined unified assignment guide for linguistic courses, or at least a unified standard.

**C. Course Description (Note: General description in the form to be used for the Bulletin or handbook should be attached)**

| 1. Topics to be Covered                                    |              |               |

3. Additional private study/learning hours expected for students per week.

6 hours

4. Course Learning Outcomes in NQF Domains of Learning and Alignment with Assessment Methods and Teaching Strategy

**On the table below are the five NQF Learning Domains, numbered in the left column.**

**First**, insert the suitable and measurable course learning outcomes required in the appropriate learning domains (see suggestions below the table). **Second**, insert supporting teaching strategies that fit and align with the assessment methods and intended learning outcomes. **Third**, insert appropriate assessment methods that accurately measure and evaluate the learning outcome. Each course learning outcomes, assessment method, and teaching strategy ought to reasonably fit and flow together as an integrated learning and teaching process. (Courses are not required to include learning outcomes from each domain.)

**On the table below are the five NQF Learning Domains, numbered in the left column.**

### G. Course Evaluation and Improvement Processes

- |   |
|---|
| 1. Strategies for Obtaining Student Feedback on Effectiveness of Teaching |
|---|

- |   |
|---|
| 1. Midterm evaluation feed-back form to increase instructor's awareness of the weak and strong points of the class (administered by the instructor)   |
| 2. End of term college evaluation of course by students (to be collected by the department)   |
| 3. End-of-term debriefing in class of students and teacher regarding what went well and what could have gone better   |
| 4. Small group instructional diagnosis (SGID) whereby instructors exchange classes and gather information from one another on specific points outlined by the department and the instructor being evaluated |

- |   |
|---|
| 2. Other Strategies for Evaluation of Teaching by the Program/Department Instructor |
|---|
